

## **FLS Aerospace**

### **John Conlon - Project Manager, FLS Aerospace said**

"PowerRetrieve has been a hugely successful tool in the indexing and retrieval of both scanned documents and microfilm. The time to copy a workpack was reduced greatly and efficiency of data retrieval increased greatly."

## **FLS Aerospace**

Keeping an aircraft flying is down to good engineering and maintenance. Every time a plane is serviced, specialist engineers check everything from the engine to the tail fin. FLS Aerospace is Europe's leading independent maintenance repair organisation, operating a network of maintenance centres employing 3000 staff worldwide. Customers include Virgin Atlantic, Ryanair and easyJet. FLS were looking for a solution to the capture and management of their aircraft service documentation.
